Information on Exportation of Docks into Canada

(6/20/2007)

Metal Craft dock products are duty-free. No Provincial sales taxes are due.

However, the individual exporting the docks is responsible to pay a 6% Canadian General Sales Tax (G.S.T.). The customs classification is different for **Stationary** Aluminum Boat Docks and **Floating** Aluminum Boat Docks:

	Stationary	Floating
Canada Customs Classification Number	7616.99.90.90	8905.90.90.00
Duty (<i>Metal Craft's dock products qualify under the terms of N.A.F.T.A. as being of U.S. origin.</i>)	0%	0%
Provincial Sales Tax (Ontario)	None	None
Canadian General Sales Tax (G.S.T.)	6%	6%

Canadian Customs only require an Invoice showing the value of the dock system, stairs, or lift products you may have purchased from us or one of our dealers. (NOTE: If bringing "product" into Canada for commercial purposes or re-sale, additional documentation is necessary.)

Canadian Customs will take the following steps to arrive at the G.S.T. amount due:

- Convert dock system U.S. dollar value into equivalent Canadian dollars, based on the rate of exchange on the day the docks cross the border.
- Calculate G.S.T. due using the Canadian dollar base. G.S.T. is paid in Canadian Currency, Visa or Master Card.
- For example:
 - Stationary Dock System invoiced at \$1,000.00 US is converted to Canadian dollars using rate of exchange (e.g., \$1.10) results in a value of \$1,100.00 CAN.
 - G.S.T. is 6% of \$1,100.00, or \$66.00 CAN.
